# ***HALLOWEEN STORIES***

**On the day of Halloween of the year 2000, in Isabel de Villena it started to rain.**

**At first everyone was normal, but a few moments later the streets were flooded. The night arrived and the students went to the school canteen to have dinner, but the people of the canteen had disappeared. The students went to the classrooms, but they didn't find the teachers.**

**The students decided to separate to find the teachers, but the children couldn't find them. One group of children found some teachers in the basement, the teachers were zombies and they had scars. The children hid because they were very scared.**

**Another group of students went to look in the kitchen, and they saw that the cooks had knives. And they had lots of wounds.**

**The students ran to the gym and they look for the two P.E teachers, they were the only ones that weren't monsters.**

**The students ran to the teachers and they asked for help, because they were in the school with a lot of monsters, and they couldn't leave. The two teachers helped the students, and they ran to a classroom. They made a plan to save the teachers and they made arms. They ran to the laboratory of the school, where they could make the arms! They separated in groups again and went to the places where the teachers were.**

**They spent all night fighting with the zombie-teachers, and at 8:00 in the morning, they finished the "war". They won, but outside it continued raining and they had to stay in school until nine at night, after, they went home and explained the story to their families.**

# THE GHOST OF THE HOUSE

This story begins with a boy named Joshua who is me, and when I went to a vacation home. It all started on Friday 13th when my parents asked me to go to a house for one week. I obviously said yes because I like going on trips. It was an hour-long trip, and I was thinking about how the house would be.

The hour passed and finally we arrived at the house. It was ugly. It was very weird and had a lot of dirt. I asked my parents if it was a joke. And they said no, but that it didn't look like that in the photos.

We took all our things to go back home, but when we were going to open the doors, we couldn't. We called the house phone and no one answered. We were locked in a slightly strange house. In the time we spent inside, paranormal things occurred that scared us even more. Things started to move on their own and change places, and there were whispers. Things suddenly disappeared, it was inexplicable!

My family and I were very scared and didn't understand anything about what was going on or why. Until suddenly we saw something terrifying. We saw that in the mirror of the main room there was something written... What was written made us very scared, and we began to pray for our lives. What he said was " I WILL KILL YOU, YOU WILL NOT COME OUT OF THIS ALIVE"

The scariest thing about this is that that message was written with something red and didn't look like a marker... It was more like... BLOOD. This already made us think that we would not leave there alive. Then we found out why: The ghost of the owner of the house had died years ago and wanted to take revenge on someone and was going to do it with us.

That's when my parents and I started screaming and panicking . We started looking for ways out, but there was nothing, until my father saw a window in the basement and hurried to open it. He ordered us to take our things and when he told us to run for our lives. When my father gave us the signal we took everything we could and ran to the car. To this day we don't know anything else about the ghost or what happened to it.

# The scary skeleton story

Once upon a time, in a school called Isabel de Villena a story took place.

I was walking through the halls of the school, and I saw in the lift a skeleton, it was wearing a dress. I ignored the skeleton but when I arrived at class the skeleton was there. I was scared and I ran to the second floor.

On the second floor I hid in the toilet and I saw the skeleton!. After that I hid in the garbage bin and the skeleton passed me. I came out of the garbage bin and I ran.

2 hours later, my two friends Naiara and Mariona and I went to floor number 0.

On floor 0 Mariona went to the gym, Naiara went to the laboratory and I went to the music class. Later, Mariona and Naiara came to where I was and we played the piano. The three of us played the same song. This song was very famous in 1876.

When we finished the song the skeleton appeared and then more. One of them had purple trousers, later another one appeared.

The skeleton with the purple trousers came out of the class with us and behind him there were other skeletons.

The skeletons came and and we said:

-What's up?

- We are good people.

We freaked out because we didn't expect this.

# The exorcist story

**In 2 ESO A the biology teacher was very angry about the bad results of the exams. In that moment she went mad and attacked the other pupils with a red pen. The pupils defended themselves with all their strength but the teacher was too strong, in the end only one pupil was left, who jumped out of the window. He broke his leg, but managed to escape.**

**In the hospital two policemen questioned the pupil, but they did not believe him. In the end he recovered and formulated a plan. He went to the church and hired a priest to exorcise the school.**

**The priest arrived and threw holy water to get the demon out of the school. The demon tried to escape but the priest locked the demon in a garbage can.**
